

# RESTORE & PROTECT – MORE THAN OUR MOTO...

Until the 1970s, we added lead to everything, including gasoline. Your work environment is no exception. Lead based coatings were used extensively in many commercial buildings in the Toronto area. Today we are still finding it in everything from lipstick to toys.

**“Eradicating  
neurotoxins from  
workplace  
environments is  
what our  
technicians are  
certified to do”**

# WHAT WE DO...

Prudent protocols allow us to provide the following abatement services:

- ✓ Safe remediate of lead contaminated areas with eco-friendly products
- ✓ Restore surfaces to original condition minus the destructive results
- ✓ Protect assets with sealers and/or coatings to reduce maintenance and costly restoration in the future
- ✓ Reduce occupation health risks to tenants

## “NOBODY CARES ABOUT YOUR SURFACES – MORE THAN WE DO”
